INDEX

AHMED, Fouad el Ehwany (215)
Present-day philosophy of Egypt. 174-179.

ALVAREZ DE LINERA GRUND, ANTONIO (216)
Cybernetics as seen by the philosopher. 202-206.

ANALYTIC philosophy
Present analysis of science. E. W. Beth. 159-162.

ANTOLIN, Viktor
On the ethics of communism. 106-108.

ANTONELLI, Maria Teresa (290)
The motif of modern thought: "human" methodology. 238-245.

ARISTOTLE
Aristotelianism and Christianity. M. de Corte. 16-21.
Saint Thomas, Commentator on Aristotle. G. Ducoin. 53-55.

ARTZ, Johannes (71)
Newman and intuition. 10-15.

ASTRONOMY
Astronomy and philosophy. J. Rohmer. 279-289.

ATOMIC power
Physical science and man's position. N. Bohr. 65-69.

AUTOMATION
Cybernetics as seen by the philosopher. A. Alvarez de Linera. 202-206.

BALTHASAR, Hans Urs von (290)
Science and religion. 230-237.

BARTOLOMEI, Tommaso M. (71)
Thought and language. 48-53.

BARUK, Henri (137)
Personality: psychological and metaphysical problem. 122-127.

BEING
Humility before being. H. Kanz. 246-250.

BETH, Evert Willem (215)
Present analysis of science. 159-162.

BINDER, Hans (137)
The notion of normal in psychiatry. 132-136.

BISER, Eugen (137)
The countenance of truth. 89-94.

BLAHA, Ottokar (71)
The logical structure of reality. 39-42.

BLANCHÉ, Robert (137)
A new look at old logic. 109-113.

BLESSING, Eugen (215)
Theodor Haecker-Philosopher. 186-194.

BOHR, Niels (71)
Physical science and man's position. 65-69.

BORNE, Etienne (137)
The meaning and meaninglessness of suffering. 98-101.

BOUYER, Louis (71)
Humanism and christianity in the sixteenth century. 56-59.

BRUGGER, Walter, S.J. (71)
Togetherness: A new dimension for traditional thought. 22-26.

BRUNNER, August, S.J. (137)
Perils of technological thought. 114-117.

BUDDHISM
Two present-day temptations: Buddhism and existentialism. F. Taymans. 43-47.

BUYTENDIJK, Frederik Jacobus Johannes (215)
The meaning of pain. 180-185.

CAUSALITY
The metaphysical problem of causality. L. De Raeymaeker. 219-229.

CHRISTIANITY
Humanism and christianity in the sixteenth century. L. Bouyer. 56-59.

COMMUNISM
PHILOSOPHY
Ideologies. H. Niel. 163-173.

CONTEMPLATION
Aristotelianism and christianity. M. De Corte. 16-21.
Meaningful silence. M. F. Sciacca. 250-254.

CORTE, Marcel de (71)
Aristotelianism and christianity. 16-21.

COSMOLOGY
Astronomy and philosophy. J. Rohmer. 279-289.

CULTURE
Science and religion. H. Urs von Balthasar. 230-237.

BUDDHISM
Two present-day temptations: Buddhism and existentialism. F. Taymans. 43-47.

BUYTENDIJK, Frederik Jacobus Johannes (215)
The meaning of pain. 180-185.

CAUSALITY
The metaphysical problem of causality. L. De Raeymaeker. 219-229.

CHRISTIANITY
Humanism and christianity in the sixteenth century. L. Bouyer. 56-59.

COMMUNISM
PHILOSOPHY
Ideologies. H. Niel. 163-173.

CONTEMPLATION
Aristotelianism and christianity. M. De Corte. 16-21.
Meaningful silence. M. F. Sciacca. 250-254.

CORTE, Marcel de (71)
Aristotelianism and christianity. 16-21.

COSMOLOGY
Astronomy and philosophy. J. Rohmer. 279-289.

CULTURE
Science and religion. H. Urs von Balthasar. 230-237.

CYBERNETICS
Computing machines and minds. J. S. Fulton. 207-213.
Cybernetics as seen by the philosopher. A. Alvarez de Linera. 202-206.

DANIÉLOU, Jean, S.J. (138)
The mystery of life and death. 118-121.

DEATH
The mystery of life and death. J. Daniélou. 118-121.

DUCOIN, Georges, S.J.
Saint Thomas: Commentator on Aristotle. 53-55.

ELECTRONIC calculating-machines
Computing machines and minds. J.S. Fulton. 207-213.

EPISTEMOLOGY
The motif of modern thought: "human" methodology. M. T. Antonelli. 238-245.

ETHICS
Background of situation ethics. A. Poppi. 266-277.
On the ethics of communism. V. Antolin. 106-108.

EVOLUTION
The theory of evolution. J. L. Russell. 63-64.

EXISTENTIALISM
Background of situation ethics. A. Poppi. 266-277.
Two present-day temptations: Buddhism and existentialism. F. Taymans. 43-47.

FREEDOM
Freedom is a reward. E. Frutos. 102-105.

FRUTOS, Cortes Eugenio (138)
Freedom is a reward. 102-105.

FULTON, James Street (215)
Computing machines and minds. 207-213.

GONSETH, Ferdinand (215)
The humanization of technics. 196-201.

GUARDINI, Romano (138)
The stages of life and philosophy. 75-79.

GUSDORF, Georges (138)
The vocation of the history of philosophy. 80-83.

HAECKER, Theodor, 1879-1945
Theodor Haecker-Philosopher. E. Blessing. 186-194.

HAWKINS, Denis John Bernard (138)
In the service of truth. 95-97.

HERSCH, Jeanne (216)
The task of the philosopher. 143-145.

HUMANISM
The motif of modern thought: "human" methodology. M. T. Antonelli. 238-245.
Humanism and christianity in the sixteenth century. L. Bouyer. 56-59.

HUMILITY
Humility before being. H. Kanz. 246-250.

IDEOLOGY
Ideologies. H. Niel. 163-173.

INTELLECT
Computing machines and minds. J. S. Fulton. 207-213.

INTELLECTUAL life
The stages of life and philosophy. R. Guardini. 75-79

INTUITION
Newman and intuition. J. Artz. 10-15.

KANZ, Heinrich (290)
Humility before being. 246-250.

KIERKEGAARD, Sören Aabye, 1813-1855
The character of Kierkegaard's philosophy. P. Mesnard. 84-89.

KNOWLEDGE, Theory of
The absurd, the paradoxical and human understanding. A. Roldan. 29-32.
The countenance of truth. E. Biser. 89-94.
Freedom is a reward. E. Frutos. 102-105.
Newman and intuition. J. Artz. 10-15.
Probability and reality. A. Metz. 128-132.
Survey and synthesis: Modern thought forms. H. Stoffer. 146-151.

LANGUAGE
Thought and language. T. M. Bartolomei. 48-53.

LIFE
The mystery of life and death. J. Daniélou. 118-121.

LIFE (Biology)
Synthesis of life. J. Moretti. 59-62.

LOGIC
The logical structure of reality. O. Blaha. 39-42.

A new look at old logic. R. Blanché. 109-113.
Newman and intuition. J. Artz. 10-15.
Present analysis of science. E. W. Beth. 159-162.
Survey and synthesis: Modern thought forms. H. Stoffer. 146-151.
Thought and language. T. M. Bartolomei. 48-53.

LOGICAL positivism
Present analysis of science. E. W. Beth. 159-162.

MAN
Computing machines and minds. J. S. Fulton. 207-213.
The humanization of technics. F. Gonseth. 196-201.
Physical science and man's position. N. Bohr. 65-69.
Philosophy and psychology in contemporary thought. S. Ucko. 255-265.
Science and religion. H. Urs von Balthasar. 230-237.
The theory of evolution. J. L. Russell. 63-64.

MESNARD, Pierre (138)
The character of Kierkegaard's philosophy. 84-89.

METAPHYSICS
The metaphysical problem of causality. L. De Raeymaeker. 219-229.
The meaning and meaninglessness of suffering. E. Borne. 98-101.
Togetherness: A new dimension for traditional thought. W. Brügger. 22-26.

METHODOLOGY
The motif of modern thought: "human" methodology. M. T. Antonelli. 238-245.

METZ, André (138)
Probability and reality. 128-132.

MORETTI, Jean
Synthesis of life. 59-62.

NATURAL THEOLOGY
The metaphysical problem of causality. L. De Raeymaeker. 219-229.

NEWMAN, John Henry, Cardinal, 1801-1890
Newman and intuition. J. Artz. 10-15.

NIEL, Henri, S. J. (216)
Ideologies. 163-173.

NORMAL
The notion of normal in psychiatry. H. Binder. 132-134.

OLBRECHTS-TYTECA, L.
The new rhetoric. 4-11.

ONTOLOGY
Humility before being. H. Kanz. 246-250.
The logical structure of reality. O. Blaha. 39-42.

PARADOX
The absurd, the paradoxical and human understanding. A. Roldan. 29-32.

PERELMAN, Charles (71)
The new rhetoric. 4-11.

PERSONALITY
Personality: psychological and metaphysical problem. H. Baruk. 122-127.

PHILOSOPHY
Philosophy and psychology in contemporary thought. S. Ucko. 255-265.
The stages of life and philosophy. R. Guardini. 75-79.
The task of the philosopher. J. Hersch. 143-145.

HISTORY

The vocation of the history of philosophy. G. Gusdorf. 80-83.

PHILOSOPHY, Ancient
A new look at old logic. R. Blanché. 109-113.
Saint Thomas: Commentator of Aristotle. G. Ducoin. 53-55.

PHILOSOPHY, Contemporary
Background of situation ethics. A. Poppi. 266-277.
The character of Kierkegaard's philosophy. P. Mesnard. 84-89.
Formal logic in Soviet philosophy. A. Winkelmann. 26-28.

Some reflections on the notion of tradition. J. Pieper. 152-159.

TRUTH
The countenance of truth. E. Biser. 89-94.
Freedom is a reward. E. Frutos. 102-105.

UCKO, Sinai (290)
Philosophy and psychology in contemporary thought. 255-265.

UNIVERSALS
The logical structure of reality. O. BLAHA. 39-42.

WINKELMANN, Alfons (72)
Formal logic in Soviet philosophy. 26-28.

WISDOM
The countenance of truth. E. Biser. 89-94.

WORK

PHILOSOPHY

The meaning and meaninglessness of suffering. E. Borne. 98-101.

"There was a time when a philosopher had to write books, or at least one thick book, if he wished to obtain a hearing for what was then called his system. This age is of shorter breath. Today many philosophers are content to pursue their education in public by means of papers they insert in learned journals."

Gustav Bergmann • Metaphysics of Logical Positivism, Preface
